

SKINTOP® CUBE MULTI

SKINTOP® CUBE MULTI, bushing system for installation of cables that have not been assembled, high packing density, large variable clamping ranges

Info

Push the cable through the innovative gel membrane and connect directly
Huge savings potential through quick installation

Optimum strain relief

Assembly time

Wide clamping range

Industrial machinery and plant engineering

Automation & fältinstallation

Benefits

Large, variable clamping ranges due to elastic gel technology
Easy assembly with high packing density
Optimum strain relief at the entire cable bundle
Simplified servicing due to flexible assembling and disassembling
Unoccupied points remain securely sealed

SKINTOP® CUBE MULTI

Application range

Used in areas where a lot of cables and wires need to be inserted into housing with minimum space requirements
For cables that have not been assembled and media conduits
Control system, control cabinet and apparatus construction
Automation technology
