

## Tofino EtherNet/IP Enforcer LSM

Part Number: 942 016-120

Part Number: 942 016-120

Deep Packet Inspection (DPI) module that provides real-time validity checking and content inspection for EtherNet/IP traffic.

## Product Description

The Tofino EtherNet/IP Enforcer LSM is a content inspector for EtherNet/IP communications, checking every message against a list of 'allowed' objects and services. You can choose from pre-defined lists of common actions, such as Read-Only, or you can build your own custom list of objects and services. Any service that is not on the 'allowed' list, or any attempt to access an object that is not approved, is blocked and reported.

The Tofino EtherNet/IP Enforcer LSM makes sure that the only messages your control devices receive are approved commands from approved computers. Accidents involving remote programming are prevented and corrupted messages are blocked, making your control system safer and more reliable.
