EAGLE Tofino Central Management Platform -
EAGLE TofinoCMP, 10 Tofinos
942 016-010

Name		EAGLE Tofino Central Management Platform
		The EAGLE Tofino Central Management Platform (CMP) software enables configuration, management and monitoring of all your EAGLE20 Tofino Security Appliances from one workstation.
Delivery informations		
Availability	available	
Product description		
Description	The EAGLE Tofino Central Management Platform (CMP) software enables configuration, management and monitoring of all your EAGLE20 Tofino Security Appliances from one workstation.	
Type	EAGLE Tofino CMP, 10 Tofinos	
Order No.	942 016-010	
Diagnostics		
Diagnostic functions	<p>Network model: Quickly and easily create a model of your entire control network.</p> <p>Security rules: Visually create rules that specify which device may communicate, and what protocols they may use. Passive Asset Discovery discovers computers and controllers, and matches them against a database of over 25 vendor product families.</p> <p>Security rules test: Security alerts are displayed in the Tofino CMP's Event View, enabling fast rule editing and refinement</p>	
Alarm and event actions	Security alerts are displayed in the Tofino CMP's Event View, enabling fast rule editing and refinement. Security alerts (heartbeats) may be relayed to syslog server (RFC 3164), enabling alerting of operations personnel via e-mail or pager. Heartbeats may be stored in a SQL database and/or text file for subsequent analysis.	
Configuration		
Configuration functions	Configure, manage and monitor an unlimited number of EAGLE20 Tofino Security Appliances from one workstation. Built-in Network Editor to quickly model your control network. Visual drag-and-drop editors for quick and easy configuration of security rules. Pre-defined templates for more than 50 industrial communication protocols and over 25 families of industrial controllers.	
User-settable options	n/a	
Hardware requirements		
Network	Ethernet network with TCP/IP protocol stack	
Recommended resolution	Minimum 1024 x 768	
Hard disk space	250 GB free	
RAM	1 GB	
Processor	Dual-core CPU	
Software requirements		
Network device	n/a	
Operating system	Windows Server 2003 (tested), Windows XP SP2/SP3, Windows Vista	
SCADA /Process visualisation		
Supported SCADA systems	Pre-defined templates for more than 50 industrial communication protocols and over 25 families of industrial controllers.	
Protocols		
Supported protocols	n/a	
Security		
Security functions	<p>Network: uses secure SSH communications to configure each EAGLE20 Tofino Security Appliance.</p> <p>Manual: encrypted configuration files may be saved on an ACA-21 storage device and loaded into EAGLE20 Tofino Security Appliances via a secure USB port.</p>	
Authentication	n/a	
Encryption	n/a	
Filter	n/a	
Product variants		
Version + Nodes	Full version	
Approvals		
MUSIC 2009-1	Certified (Foundation Level)	
Modbus-IDA	Certified Modbus compliant by Modbus-IDA	
Scope of delivery and accessories		
Scope of delivery	Software download. License activation via email.	
Accessories to order separately	Printed Installation Guide and CD-ROM with software and manuals. (Order-No. 942 016-001)
