

## (h) HIRSCHMANN

Product information SPIDER II Giga 5T EEC 943 962-002

Name

SPIDER II Giga 5T EEC

|   | Entry Level Industrial ETHERNET Rail-Switch, store and forward switching mode, 10/100/1000 Mbit/s Ethernet |  |  |
|---|--|--|--|
| Delivery informations                     |  |  |  |
| Availability                              | available  |  |  |
| Product description                       |  |  |  |
| Description                               | Entry Level Industrial ETHERNET Rail-Switch, store and forward switching mode, 10/100/1000 Mbit/s Ethernet |  |  |
| Port type and quantity                    | 5 x 10/100/1000BASE-T, TP-cable, RJ45 sockets, auto-crossing, auto-negotiation, auto-polarity              |  |  |
| уре                                       | SPIDER II Giga 5T EEC  |  |  |
| Order No.                                 | 943 962-002  |  |  |
| Nore Interfaces                           |  |  |  |
| ower supply/signaling contact             | 1 plug-in terminal block, 3-pin, no signaling contact  |  |  |
| etwork size - length of cable             |  |  |  |
| wisted pair (TP)                          | 0 - 100 m  |  |  |
| letwork size - cascadibility              |  |  |  |
| ine - / star topology                     | Any  |  |  |
| ower requirements                         |  |  |  |
| perating voltage                          | DC 9.6 V - 32 V  |  |  |
| urrent consumption at 24 V DC             | max. 145 mA  |  |  |
| ower consumption                          | max. 3.6 W; 12.3 Btu(T)/h  |  |  |
| ervice                                    |  |  |  |
| iagnostics                                | LEDs (power, link status, data, data rate)   |  |  |
| edundancy                                 |  |  |  |
| edundancy functions                       | n.v.   |  |  |
| mbient conditions                         |  |  |  |
| perating temperature                      | -40 °C to +70 °C   |  |  |
| torage/transport temperature              | -40 °C to +85 °C   |  |  |
| elative humidity (non-condensing)         | 10% to 95%   |  |  |
| ITBF                                      | 1,084,142 hrs (Telcordia SR-332)   |  |  |
| lechanical construction                   |  |  |  |
| imensions (W x H x D)                     | 35 mm x 138 mm x 121 mm  |  |  |
| lounting                                  | DIN Rail 35 mm   |  |  |
| /eight                                    | 240 g  |  |  |
| rotection class                           | IP 30  |  |  |
| lechanical stability                      |  |  |  |
| EC 60068-2-27 shock                       | 15 g, 11 ms duration, 18 shocks  |  |  |
| EC 60068-2-6 vibration                    | 3,5 mm, 3 Hz - 9 Hz, 10 cycles, 1 octave/min.;   |  |  |
|   | 1g, 9 Hz - 150 Hz, 10 cycles, 1 octave/min.  |  |  |
| MC interference immunity                  |  |  |  |
| N 61000-4-2 electrostatic discharge (ESD) | 6 kV contact discharge, 8 kV air discharge   |  |  |
| N 61000-4-3 electromagnetic field         | 10 V/m (80 - 1000 MHz)   |  |  |
| N 61000-4-4 fast transients (burst)       | 2 kV power line, 4 kV data line  |  |  |
| N 61000-4-5 surge voltage                 | power line: 2 kV (linie/earth), 1 kV (linie/line), 1 kV data line  |  |  |
| N 61000-4-6 conducted immunity            | 10 V (150 kHz - 80 kHz)  |  |  |
| MC emitted immunity                       |  |  |  |
| CC CFR47 Part 15                          | FCC CFR47 Part 15 Class A  |  |  |
| N 55022                                   | EN 55022 Class A   |  |  |
