

# Safety Cut-out Switches 16A 250Vac

**C0320AA**  
16.1A 250Vac

**C0320BB**  
16(4)A 250Vac 1/2hp

μ contact gap

These safety switches are assembled with snap-action switches shown on pages 50 and 51

Technical data, alternative ratings and approvals are listed on the above pages

*Safety requirements for Portable Heaters can be met by the fitting of a safety cut-out switch  
The heater will then turn off if overturned*
